About This Game

Collide is a sliding puzzle game. As an orange square, players must collect all of the coins on each map then slide to the finish, using as few moves as possible. Use WASD or the arrow keys to move around the map.

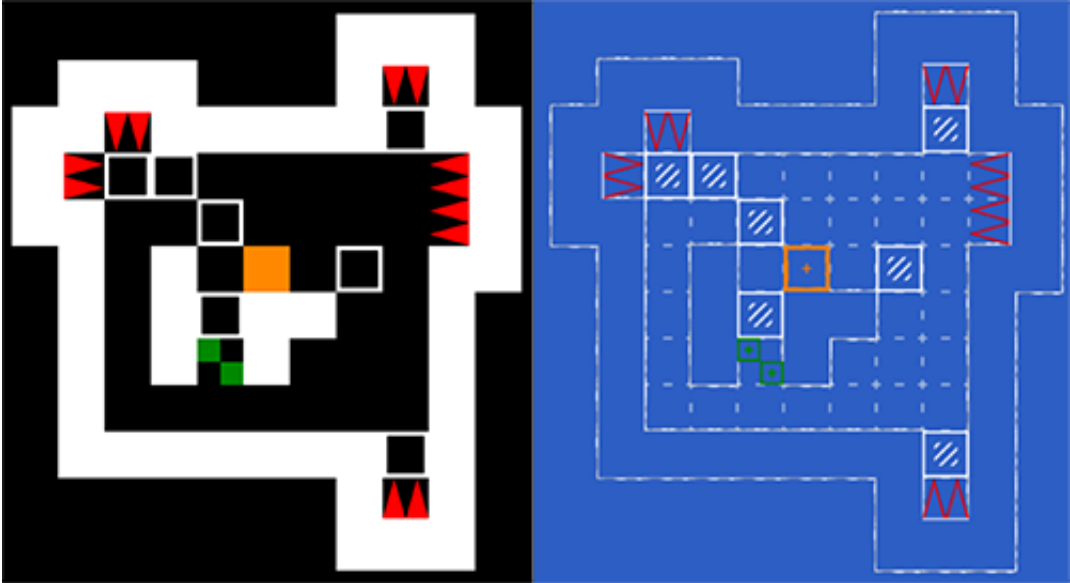

Play through the easy, medium, and hard campaigns. Each has 25 different levels of progressing difficulty. Unlock the different campaigns by beating at least 15 of the previous campaign's maps.

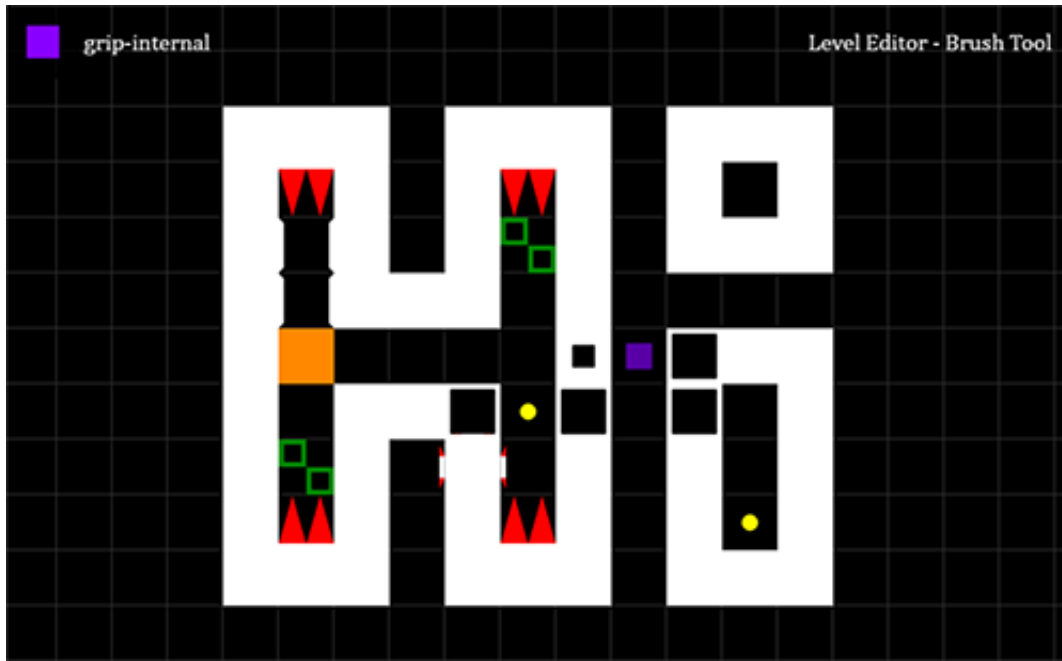

Once you've beaten all of the campaign levels, try to earn or beat par. Also, as you play, you'll earn achievements. Try to earn all 100 and their corresponding rewards (they're not all for bragging rights).

Earning achievements can unlock 10 different skins for the game.

Players can also create and share their own maps. Using the in-game *Level Editor*, players can create unique maps and share the levels with friends.

As you create your own levels, try sharing them with other skilled players to see what "par" really is for each of your puzzles.

"Get from point A to B then C. Wait, isn't D next? No, that's a trap. It must be E. Alright, now how do I get from here to the finish?"

A shameless attempt to let you pay for the content of Wrath of the Damned event twice. Your girlfriend will love the spider thingy, but you know it's useless. None of the cards are essential and you don't want to pay 5 to extend your collection by few extra virtual cards, do you?. This game is quite different from the usual. It's a turn based RPG heavily focused in the story. The story can sometimes be quite confusing, as you play the role of a girl that lives as much in her dreams as she does in her real life. If you decide to embark in this journey, you'll find a moving and deep story that's totally worth it.

I thoroughly enjoyed this story, and even if you're not too keen on the combat style there are a few posts in the boards with builds that make it a lot easier.

So Winter Voices is not fast paced, action packed or modern looking, but for me the touching story is good enough that makes it up for it. With the game being free nowadays there is no excuse not to try it, imho.. I had just been buying everything Zaccaria released, but it looks like I can't do that anymore.

This is A SINGLE pinball table where the more you play it, the more art you get to put on it.

-No Sound FX edits

-No playfield edits

-No custom images; just pre-defined shapes and logos.

The table itself is just plain boring. It's very similar to the "Achievement Tables" they've released in the past, which in my opinion, are some the weakest tables in the Zaccaria Pinball package.

I was hoping for an Artwork Editor for every table, similar to how they let the user edit the lighting of each table.

Maybe this will become something more advanced in the future, but as of right now I wish I didn't purchase this.. Trick & Treat is a short Halloween themed horror RPGmaker game.

Without a doubt a very cute and fun game about visiting a vampire's mansion on the Halloween Eve. It has nice puzzles and story, and of course a good plot twist. Quite enjoyable experience in a small package.. Take control of a miniture Titan, purging mutant warp spawned llamas in the name of our glorius Emperor of Mankind. This twin stick shooter has everything a Warhammer 40k fan could ask for... Bolters, Flamers, Kraken missiles, even Helfrost weaponry... it's so rare to see that in a 40k game though.

Though it's not too high on content, it is VERY fun, and that is enough.. Fallout but with thinking.. Even the first two levels were so much fun! And there are even more as well as Mini-Games. Definitely a must have for everyone with a HTC Vive. It's nice to see some of DE:MD's Prague in VR and it's free, so yes it's recommended unless you're prone to motion sickness since there's no teleporting.. An interesting tower defense-esque game. Essentially, you're a god who's trying to prevent the humans from reaching you via a tower they are building. It'll be up to you to keep them happy and knock down their tower at the same time. Anger them, and your "worship" points trickle in much more slowly (preventing you from using god powers as often). They also work faster when they're angry, which is bad. There's a lot here for \$3.50 (on sale until Oct 17) including 20 gods across 96 levels. Worth checking out at the very least.

Free if you are an early access player. 10/10. HORRIBLE game play!!!! Hand doesn't even click on the area you have selected. Had Sherlock stuck in a room for 15 minutes trying to get him to open the door and leave and couldn't. The angles are horrible, you walk to corners and can't get out. If the game was created to irritate and anger you it does a very good job. I have played this game and the mystery of the mummy. They both seem like bad knock offs of the classic Electronic Arts Sherlock Holmes games. I have purchased the rest of the set from Frogwares I would hope that at least one will be worth the money spent...The jury is still out, moving to the next game in the series.. The core game mechanic is fun and feels great, and each stage manages to do something interesting with it. There's an attention to detail in both the design and writing that makes this game really stand out amongst its contemporaries. It's an amazing game on the surface and there's also a lot more if you want to dig deeper too. Seriously, don't sleep on this game, even if you're not usually into these types of shooting games, this is a really good entry point into the genre.. compelling story, definitely better than any other game on this platform tenfold. Buy all the DLC, you won't regret it. I can't get enough of Sanctum 2, it's a great game.. Honestly ...I thought it would be a good game , but ..number 1, I did not get anyone to answer or give me a tip on my query (stuck in reactor)..number 2 ...graphics and how things happen in the game need to be addressed.....example ...in the cell room, as you're walking (running) along the wall as you go up the stairs to get into other rooms , it seems like the wall its two parts and as you get closer ,it turns into an actual wall.....anyway , I believe the game is a one person endeavour (thumbs up for you) but , in my opinion ...it needs work.....
